

Hi Howard:

Just sending you a note about our many visits together over the years.

Howard you and your wife Ivy are truly a remarkable couple.

I remember when I first took a craps course how you stood out as one of the instructors who took an extra interest in making sure all the students under your instruction got the throw correct . You took your time and were not in a hurry to get it done and over with.

Over the years my wife and I enjoyed many meals together with you and your wife, Ivy I also enjoyed our many shooting sessions together in Las Vegas. Howard I really appreciated it.

I was never turned down when I asked to shoot with you. Your interest in shooting with students was amazing you wanted us to shoot and encouraged us to do so . We did not acknowledge each other at the tables only afterwards. Making money at the tables was a bonus .

I remember very clearly when my wife and I drove to Florida on our vacation ,we called you up and you drove over a half an hour to meet us for breakfast you would not let us buy your breakfast , but insisted on buying ours.

Howard I always saw you were down to earth and not someone high up on a pedestal . Teaching , working , and playing with students meant more to you then the money you received for your efforts. You always were out to have fun and good times not only with students but also with your instructor friends

Thanks for being my friend and mentor;

David
