

Howard,

It was a pleasure meeting you this past October in Las Vegas. As you know my wife Stephanie and I have been "amateur" dice controllers for more than a half a dozen years. We have explored both "on" and "off" axis techniques and have had a modicum of success and a great deal of enjoyment at the tables. We have worked with different coaches and have been impressed with some and less than successful with the techniques of others.

My experience with your on axis brush up class in Las Vegas was exceptional. Over the years injuries to my back, arms and shoulders have kept me from consistent throws and long hands. Your suggestions for sets, grips, releases, and landing areas on the table were sensational. You introduced me to nuances of the throw that will allow me to participate in, be more successful at, and enjoy the game of craps for many more years.

I found you to be an exceptional instructor and I recommend your services to any one interested in improving their skills at craps from beginners to experienced players.

Thanks again for sharing your expertise.
