

Hi Howard,

First, thank you very much for the one on one session on Saturday. I learned how to improve upon many things - a softer toss, slowing down a bit, aiming for the mark approximately six inches from the back wall, less backswing, a release without "flicking" the dice and 45 degree angle for a nice loft (not a line drive).

Additionally, I learned the potential benefits of the 2V set (both the 4/10 and 5/9 flavors). I even got the chance to try a few tosses from Stick Right - a bit awkward right now, but certainly something to practice. Finally, we spent some quality time reviewing some variations on my conservative/disciplined method of betting. No question about it - the session was well worth the price and I will return again for some tune-up time with you.

Rob N., N.Y.C.
